

The last audit was carried out in September 2022 – below is a copy from the SafeNest portal with outstanding actions

The screenshot shows the 'myworknest' dashboard. At the top, there is a navigation bar with the logo and a 'Need Help? Call: 0345 226 8393' link. Below the navigation bar is a 'Dashboard' section with a sub-header: 'An overview of each module's status, a view of actions across modules making it easy to spot areas that need attention by identifying what is complete and what is outstanding.' There is a dropdown menu for 'Select a site' set to 'All'.

The main content area is divided into two sections. The left section is titled 'Actions' and contains a filter for 'Audits' and a 'From date' field. Below this is a table of actions:

Description	Priority	Site	Module	Responsible	Due
Action: Powered doors/gates not maintained regularly	High	Edenbridge Town Council	Audit - General Risk Assessment	Craig Owen	2022 Sep 29

The right section is titled 'Consultant Details' and is currently blank.

Below the table, there is a section titled 'What is a risk assessment?' with a brief explanation of the process. To the right of this text is a 'Site Locations' map showing various locations marked with pins, including 'A & B Sports Centre', 'Bunglers Down', 'Hampden Building Co', 'Muir's Larder', and 'Edenbridge Town Council'.

The bottom of the screenshot shows a Windows taskbar with the search bar and system tray icons.
